In a para-phrase – The Christian and Missionary Alliance was started as an alliance between Christians of many different denominations to support missionaries. I like to call us the ‘un-cola’ because we have the authority and accountability of a denomination but the flexibility of a movement.

The Opportunity & The Need

There is a missing generation from our churches today. Most churches don't have to many people between the ages of 18-35 but did you know that God seems to work through this group? God has used college students to begin nearly every revival in the last 300 years.

Vision

Our Vision is to bring God to this generation - the Missing Generation and to everyone else too. You want to experience a God who is real - otherwise what is the point? If you are going to get involved with a religion - you are either just checking it out because you want to be respectful of different people and religions or you are hoping there might be something to it - maybe God is real. Could God be real?

Small Beginnings

Starting a new church is referred to as 'church planting' because since God is real churches are like living things, spiritually speaking, and they start out small and grow bigger and bigger. They grow through God's Spirit as we learn about the Son of God, study His Sacred writing and pray and worship. Jesus bought our freedom and this living church grows as people are set free.

Where We Want to Go:

Our vision is to have **two worship services** - a concert and a small house church. We plan to have a **concert style service** at Jozart Studio (or elsewhere) where our worship team and various artists perform and lead Christian worship songs and different people speak each week to talk about what God has done in their life. And **the house church** will be for those who are sure they are and want to be Christians to meet together and go deeper. We envision this group steadily growing into a full blown community church.

Core Values

Christ the King heals today, is the source of Life and Holiness and is the Savior every human desperately needs.

God loves, calls and uses young people, so we are going to take that seriously.

God loves, calls and uses older people too, so we are going to take that seriously.

We observe that the Holy Spirit unites us together in love.

Mission Statement

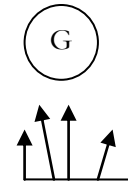

Believing in the power of the Gospel and trusting Jesus to build His Church, we believe we are called...

To follow Christ wholly.

To reach college students and others with the Gospel.

To train them to do the same.

Salvation Plan

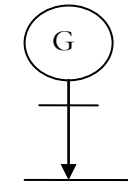

Religions try to jump up to God... they are beautiful expressions of culture but it can't work...

Mt 15:3 **Jesus replied, "And why do you break the command of God for the sake of your tradition?"**

Think about it, between God and humans, who would have the power to reach the other?

God has told us that though we were born His enemies He loves us (Ro 5:8). And He sent His Son to die for our sins. (John 3:16)

Jn 3:17 **For God did not send his Son into the world to condemn the world, but to save the world through him.**

But God can come to us... Ro 10:5 -11

(Believers should look to Ephesians 4...)

**Students Ministering to Community...
Community Ministering to Students:**

We believe that God will raise up workers, that our church will be a family and a mission base. As we pull together we will be able to minister to one another and in time, God will bless us with ministries to seniors, families, singles, students and children!
